

PAYROLL GIVING

SUPPORTING TRANSAID IN YOUR WORKPLACE

ABOUT PAYROLL GIVING

What Is It?

Payroll Giving, also known as Give As You Earn, allows employees to donate to any charity directly from their gross salary. This means that employees receive immediate tax relief on their donations, making it one of the most tax-efficient ways to give to charity!

The Impact

A monthly donation of just £10 (costing a basic rate taxpayer £8) to Transaid, for example, could help train a driver in Ghana, potentially saving countless lives through improved road safety.

Why Support Transaid?

By supporting Transaid through Payroll Giving, your company and employees become part of a mission to transform lives through safe, available, and sustainable transport. Your support directly contributes to professional driver training, improving access to healthcare, and sustainable transport solutions in communities where they're needed most.
